Some men farm all their lives
with their feet. Others farm with
their head and feet, and they are
the ones who succeed. There are
others that farm with their mouths
and we need to look out for them.

The more the people are troubled,
the greater their prosperity. This
strange anomaly is the perverted
philosophy of the railroads asking
for an income in freight rates, but
the woods are full of Missourians
who can not see it.

Nobody is caring over a drought
right now and our earlier fears for
the salinity summer days have been
much allayed. We can largely
provide insurance against trouble
by doing our spring work in the
proper manner.

There is no use grousing be-
cause the good things are not com-
ing your way, when you will make
no effort. Too many believe in an
old saying, "all things come to those
who wait." There is absolutely
nothing to it, for the man who
waits and doesn't work will not find
any of the good things coming his
way. Since the beginning of man
it is known that he has had to help
himself.

With the coming of spring all
nature smiles just as if there had
been no winter. What a sad old
world it would be if mother earth
would put on black for months to
tell folks she was in mourning for
old father winter. But instead
she puts on green and wears her
brightest smile and if April sheds
showers of tears, it is to bring up
May flowers to make folks glad in-
stead of sad.

Someone has advanced the opinion
that the letter 'e' is the most
unfortunate letter in the English
alphabet because it is always out of
cash, forever in debt, never out of
danger and in hell all the time.
For some reason he overlooked
the fortunes of the letter, as we
call his attention to the fact that
'e' is never in war, always in
peace. It is the beginning of ex-
istence, the commencement of ease
and the end of trouble. Without
it there would be no men, no life
and no heaven. It is the center of
honesty, makes love perfect and
without it there would be no prin-
ters, editors, devils, or nuns.
